Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from *Controlled Natural Selection and Value Marking* This small volume makes public a new Theory. At the outset it is most important to make clear that no attempt is made to prove the Theory. For this reason it would have been better perhaps to have called it a New Hypothesis. Nevertheless, although proof is not attempted, the numerous examples mentioned for purposes of illustration are, in themselves, facts which the Theory correlates, and therefore to some extent put the Theory to test. One reason why proof is not attempted, is that many and important observations which would best test the Theory, have either not been made or records of them have not been found. So much is this the case, that one of the chief reasons in bringing forward the Theory is to stimulate such research. Another reason is that it supports Charles Darwin s Causo-mechanical Theory of the Origin of Species. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
