

The American Gynaecological and Obstetrical Journal, Vol. 13: July December, 1898 (Classic Reprint) (Paperback)

By J D Emmet

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The American Gynaecological and Obstetrical Journal, Vol. 13: July December, 1898 While a large mammal bears but a single young one at a time, is several years before it commences doing this, and then repeats the reproduction at long intervals; we find, as we descend to the smaller members of the class, a very early commencement of breeding, an increasing number at birth, reaching in small rodents ten or even more, and a much more frequent recurrence of broods: the combined result being a relatively prodigious fertility. If a specific comparison be desired between mammals that are similar in constitution, in food, in conditions of life, and all other things but size, the deer tribe supplies it. While the large red deer has but one at a birth, the small roe deer has two at a birth. From vegetable life: For some years it [the cocoanut] goes on shooting up without making any sign of becoming fertile. About the sixth year it flowers; but the flowers wither without result. In the seventh year it flowers...

Reviews

An exceptional pdf and also the typeface applied was intriguing to read through. It is definitely simplified but excitement in the 50 % in the ebook. I discovered this ebook from my dad and i recommended this pdf to find out.

-- Jarod Ward

Complete information for publication enthusiasts. It is really basic but shocks inside the fifty percent of your book. I am just delighted to let you know that this is basically the finest book i have read through in my individual lifestyle and might be he best pdf for actually.
