Language: English Brand New Book ***** Print on Demand *****.Excerpt from Alfred Russel Wallace: Letters and Reminiscences During the period covered by the reception, exposition, and gradual acceptance of the theory of Natural Selection, both Wallace and Darwin were much occupied with closely allied scientific work. The publication in 1859 of the Origin of Species marked a distinct period in the course of Darwin's scientific labours; his previous publications had, in a measure, prepared the way for this, and those which immediately followed were branches growing out from the main line of thought and argument contained in the Origin, an overflow of the mass of facts patiently gathered during the preceding years.
