

Nature s Portraits: A Coloring Book of Scales, Tails, Furs, and Wings (Paperback)

Filesize: 4.15 MB

Reviews

This ebook is worth acquiring. It is rally fascinating throgh looking at period of time. I am quickly could get a pleasure of reading a created pdf.

(Mekhi Crona)

NATURE S PORTRAITS: A COLORING BOOK OF SCALES, TAILS, FURS, AND WINGS (PAPERBACK)

The University of Chicago Press, United States, 2016. Paperback. Book Condition: New. 248 x 210 mm. Language: English . Brand New Book. When it comes to color, nothing can surpass the vast palette found in nature, from a bright green leaf in a sun-dappled forest to the rich red feathers of a cardinal and the muted greens, ambers, and browns that make up the shell of a tortoise. Wildlife artist Peggy Macnamara has been recreating the natural world through her drawings and paintings for decades, and, with Nature s Portraits, she invites the rest of the world to join her. Nature s Portraits offers sixty of Macnamara s detailed drawings that can be brought brilliantly to life with nothing more than a few colored pencils or crayons and a sense of wonder about the world around us. Many of the drawings depict animals as they might appear in their natural habitats like a tree frog, a dashing, playful fox, a snowy owl poised for flight, a sauntering jaguar, and a watchful herd of giraffe. These wild furry and feathered friends are joined by animals found in museums, including Sue, the Field Museum s resident Tyrannosaurus rex. Each illustration is captioned with a brief scientific description of the species pictured. Combining inspiration from natural history with a calming, creative activity, Nature s Portraits encourages us to take a closer look at what we miss when we don t take the time to stop and look with deep appreciation at the bounty of the natural world around us.
