Patients conditions or diseases are expressed in claims Therapy Caps data through diagnosis codes, and the coding system allows providers to use nonspecific diagnosis codes that are unrelated to a specific clinical 23 condition or disease. A CMS-contracted analysis of 2002 Medicare 24 outpatient therapy claims data, for example, found generic codes, such as other physical therapy, to be among the most often used diagnosis codes on claim forms (see table 1). Moreover, current Medicare guidelines for processing claims permit institutional providers, such as outpatient rehabilitation facilities and skilled nursing facilities.

Reviews

I actually started looking over this publication. It really is rally interesting throgh studying period. Once you begin to read the book, it is extremely difficult to leave it before concluding.
